

ADAPTIV HOME RENOVATIONS

Are you looking to make your home more comfortable, safe, and accessible?

Whether it is due to a sudden injury, disability, or simply the desire to live in your home for as long as possible – an Adaptiv Home Renovation can help.

Adaptiv Home Renovation is an approach to home modifications for individuals who want to stay in their home for as long as they can, regardless of age or condition.

Hire A Qualified Adaptiv Home Specialist

Qualified Adaptiv Home Specialists are experts in modifying homes to accommodate individuals living with a disability, a progressive condition, or those looking to age in place.

In addition to specific building knowledge, they have received training in client communication, empathy, privacy, insurance, and legal considerations.

A Qualified Adaptiv Home Professional will:

- Review the home to identify safety hazards and areas that need to be adapted for accessibility.
- Propose responsive design solutions with careful consideration of the client's current and future healthcare needs.
- Approach their clients with empathy and a better understanding of the conditions and diseases that impact their daily lives.
- Build a team of professionals with specific expertise in home modification. In addition to renovators, this may include designers, occupational therapists, accessibility equipment specialist, etc.

ADAPTIV HOME MYTHS

It's only for the elderly

Making choices now will give homeowners greater control over their independence, dignity, and quality of life as they age.

Adaptiv renovations are too expensive

The ability to stay in your home can be more cost effective than moving into a retirement home. Government tax credits are also available to help reduce costs.

It's only about aging

Over 8 million Canadians age 15+ are living with a disability. They deserve access to a safe and comfortable home.
