Energy Advisor, Trainer & Industry Consultant – Canadian Home Builders' Association New Brunswick (CHBA-NB)

The Canadian Home Builders' Association is the voice of residential construction in Canada and in New Brunswick. Our Provincial Office is located in the heart of downtown Fredericton, New Brunswick. We promote excellence in residential construction and work to improve the quality of housing, provide training and skill development to industry by certifying home builders and renovators through our CHBANB MASTER BUILDER® Program. We provide public education on building science, help consumers understand the benefits of hiring a professional contractor and we champion energy efficiency in New Brunswick (since 1980) by delivering the R-2000, Energy Star and Net Zero Housing Programs. We are a not-for-profit Association representing industry practitioners from all corners of New Brunswick.

One of our primary services to the residential construction industry is providing energy efficiency training to energy advisors, builders, renovators, building officials, indigenous communities, real estate professionals, HVAC professionals and consumers. Our Energy Advisors also works closely with builders who want to move from Code built homes to High Performance Homes including Energy Star for New Housing, Net Zero Ready and Net Zero Homes. We are currently working with industry stakeholders and partners to prepare our industry for stringent building codes that will see our industry moving to zero emission buildings by 2050 in conjunction with the Government of Canada's Green Housing Policies.

We have a full-time permanent position available for an Energy Advisor, Trainer & Industry Consultant. The successful applicant will work closely with the Association's Training Team to deliver energy efficiency training to those who work in the residential construction industry. This training will include, building science training, EnergyStar Training, and Net Zero Training. In addition to training the industry's next energy efficiency leaders, our Energy Advisor, Trainer & Industry Consultant will provide mentoring and consultation services to builders who want to move from code built to high-performance and ideally net zero labeled buildings. As we pride ourselves on delivering the latest in building science technologies and knowledge, and therefore the successful candidate will also serve on a number of committees and councils, locally, provincially, and nationally to help shape the program and policies for future housing programs.

Our Energy Advisor, Trainer & Industry Consultant will travel throughout New Brunswick and Atlantic Canada and will meet the province's premier builders, renovators, and stakeholders. They will develop positive work relationships with industry practitioners and stakeholders and seek opportunities to share the latest in building science information. Some national travel will also be required to attend industry gatherings and conferences. The successful candidate will have a positive attitude, like helping people, be able to undertake responsibilities and tasks and carry through to completion with minimum supervision.

Qualifications:

Our Energy Advisor, Trainer & Industry Consultant will be outgoing, energetic, and willing to immerse themselves fully into this very important role. They will have the following skills and qualifications:

1. Registered Energy Advisor with Natural Resources Canada
2. Experience in providing energy efficiency support to the residential construction industry and homeowners through the EnerGuide Rating Service (New & Existing & MURBS), and Energy Star for New Homes®
3. Qualified CHBA Net Zero Energy Advisor and Trainer
4. Extensive knowledge of Hot2000
5. HRAI Training including F280 and F326 would be an asset. Training can be provided by the employer.

6. Experienced trainer, speaker, and presenter
7. Excellent communication skills in English and bilingualism in both official languages would be an asset
8. Strong Microsoft Office skills (Word, Excel, Power Point, Outlook)
9. Valid driver's license and reliable transportation
10. Current Member of CACEA – Canadian Association of Consulting Energy Advisors would be an asset.

Working for the Canadian Home Builders Association NB (CHBA-NB) is a rewarding experience. We provide flexibility in working hours, and a work from office/home hybrid approach, health benefits program, transportation for out-of-town travel, telephone, and a competitive salary.

This position is open to a person who resides in Fredericton, NB, or the immediate area or willing to locate to Fredericton, NB. Ideally, this newest staff member would be in place and ready to embrace our robust training schedule by November 1, 2024, this point is negotiable.

Application Deadline is September 30, 2024

The Canadian Home Builders' Association New Brunswick embraces a culture of belonging in the workplace. No matter who you are, where you are from, how you think, what you believe in, or who you love, we welcome your application. We all come from different backgrounds and different walks of life, bringing in unique perspectives and experiences. We encourage applications from 2SLGBTQ+, Black, Indigenous, and People of Colour (BIPOC), women, newcomers to Canada, and people with disabilities. If you are a member of one of these underrepresented groups, **we invite you to self-identify on your cover letter or resume.**

Interested applicants can email their resume complete with references to nbhome2@nb.aibn.com. Although we appreciate everyone's interest in this position, only those who are chosen for an interview will be contacted. To learn more about us visit: www.nbhomebuilders.ca.
